BACKGROUND

Established some 55 years ago, Premium Fresh Tasmania (PFT) is a privately owned vegetable farming and processing operation. PFT is a significant employer in the Devonport area, employing from 140 people during the quieter season, to over 220 during the busy carrot season.

PROJECT

CoreStaff works closely with PFT via contractual HR management of all staff on site.

Services provided include:

- HR management of all staff on site, including bulk recruitment of seasonal casuals
- Rostering across all production areas and farms
- Site safety management, including chairing of the WH&S committee
- Presence of CoreStaff operations supervisors on-site

"I have worked with many companies that provide the usual labour contract service, but found CoreStaff exceeded all my expectations and operations of companies that operate in this market."

Rick Ertler, General Manager, Premium Fresh Tasmania
